

Business Studies Curriculum Overview - Year 10

	Unit	Details
Autumn One	People (Human Resources)	Pupils explore how businesses arrange their employees in terms of an organisation structure and how they develop effective channels of communication.
Autumn Two	People (Human Resources)	Pupils practically learn how businesses recruit, train and motivate their employees with pupils going through an application process and assessment centre. We also review different employment laws that businesses must comply with.
Spring One	Operations	We examine the role of the Operations department within a business and explore different methods of production used by manufacturing businesses.
Spring Two	Year 10 assessment: preparation and feedback	We recap the learning so far and look to further develop pupils' exam skills. Pupils will sit an assessment to check their understanding of the topics they have studied and to highlight any areas of development that we will tackle.
Summer One	Operations	Pupils learn about the importance of quality control and customer service to the success of a business. We also review the importance of complying with consumer protection laws.
Summer Two	Finance	We examine the role of the Finance department within a business and explore the different incomes and expenses that a business has.
