Computer Science Curriculum Overview - Year 11

	Unit	Details
Autumn One / Autumn Two	**Ethical, legal and environmental impacts of digital technology on wider society, including issues of privacy**	In this unit Pupils explore a wide range of topics which can impact on society including the environmental impact of computing and waste, the dangers and risks presented by cyber security and hacking, as well as issues across technology such as wearable technology and autonomous vehicles.
Spring One / Spring Two / Summer One	**Preparation for final exams**	We help to prepare the pupils for their final GCSE exams by revising the topics we have studied and building their confidence in answering exam-style questions. This includes reviewing topics studied earlier in the qualification and perfecting examination techniques with difficult topics such as Trace tables and advanced data structures and networks. This supports pupils to thrive within the summer examination series and identify any areas which require further support,
