

Games Curriculum Overview - Year 10

		Unit	Details
Autumn One	Rugby		Pupils will be taught skills to develop and challenge them in rugby fixtures. They will develop strategies and tactics in game situations and follow a rugby or hockey continuum, involving more developed skills, such as tackling and scrums. This will be mirrored in the hockey curriculum developing specific skills and strategies. All pupils will have the opportunity to compete at their level against another school.
Autumn Two	Hockey		
Spring One	Football		Pupils will be taught skills to develop and challenge them in football and netball fixtures. They will develop strategies and tactics in game situations and follow a football or netball continuum, involving more developed skills, with more players in a team. This will be mirrored in the netball curriculum developing specific skills and strategies. All pupils will have the opportunity to compete at their level against another school.
Spring Two	Netball		
Summer One	Cricket		Pupils will be taught skills to develop and challenge them in cricket, tennis and rounders fixtures. They will develop strategies and tactics in game situations and follow the laws of each game, involving more developed skills, this could involve using a hard ball in cricket and using pads and helmets. This will be mirrored in the tennis and rounders curriculum developing specific skills and strategies. All pupils will have the opportunity to compete at their level against another school in the cricket matches.
